Healthy Food Healthy Bees Connection is now accepting registrations for the 2017 season! Many beekeepers are looking for additional locations to put honeybee hives and many farmers are looking for honeybees to help pollinate their crops - so we provide the match free of charge! Registration is easy, simply go to [www.northernbeetwork.org](http://www.northernbeetwork.org) and click on the Healthy Food Healthy Bees Connection! Register the county that your farm is in or the counties where you wish to place bees and you will be notified when a match is found! Beekeepers, please register separately for every county you wish to put bees in. If you have any questions, please contact Barb Barton at 734-576-8427 or email [barb@leaningtreeshoney.com](mailto:barb@leaningtreeshoney.com). You must re-register every year.

Please share widely with beekeepers and organic and transitioning farmers!
